

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. ~~(currently amended)~~ A kit provided to a customer for organizing a plurality of images obtained from a predetermined source, said kit comprising,

an image retaining device for capturing of images, said image retaining device having an unique ID which has been forwarded to a database of a network photoservice provider where images obtained later from said image retaining device can be stored;

a registration card for using in accessing said photoservice provider for registering said image retaining device to ~~[[a]]~~ said customer; and

a computer software program such that when loaded on a computer will allow the ~~consumer~~ customer to accomplish certain operations at the network photoservice provider.

2. (original) A kit according to claim 1 wherein said computer software program is provided on a CD.

3. (original) A kit according to claim 1 wherein said kit is associated with a particular good or service to be provided to said customer.

4. (original) A kit according to claim 1 wherein said image retaining device comprises a roll of photographic film.

5. (original) A kit according to claim 1 wherein said computer program allows said customer to register additional image retaining devices.

6. (original) A kit according to claim 3 wherein said computer program allows the customer to select, modify and/or change said goods and/or services that are to be provided.

~~7. (original) A kit according to claim 1 wherein a plurality of said image retaining devices are provided in a single package.~~

8 (original) A kit according to claim 1 wherein said image retaining device comprises a roll of photographic film.

9. (original) A kit according to claim 8 wherein said unique ID is provided on said roll of photographic film.

10. (original) A kit according to claim 9 wherein a plurality of said rolls of photographic film are provided film cartridges, said plurality of film cartridges are provided in a single package.

11. (original) A kit according to claim 10 wherein said package is provided with a plurality of stickers, said stickers having said unique ID written thereon. Said sticker capable of being placed on said film cartridge to create a film cartridge having said unique ID.

12. (original) A kit according to claim 11 wherein said unique ID on said sticker is in a machine readable form that can be read by a scanner.

13. (original) A kit according to claim 1 wherein said registration card is provided with a security label for covering said unique ID written thereon such that said unique ID can not be viewed.

14. (currently amended) A kit provided to a customer for organizing a plurality of images obtained from a predetermined source, said kit comprising,

a registration card for use in accessing a network photoservice provider for registering an image retaining device to [[a]] said customer, said image retaining device is used to capture images thereon, said registration occurring prior to said network photoservice receiving said image retaining device; and

~~a computer software program such that when loaded on a computer~~
will allow the ~~consumer~~ customer to accomplish certain operations at the network
photoservice provider.

15. (original) A kit according to claim 14 wherein said kit is
associated with a particular good or service to be provided to said customer.

16. (original) A kit according to claim 15 wherein said
computer software is downloaded from said photoservice provider.

17. (original) A kit according to claim 14 wherein said image
retaining device comprises a roll of photographic film.

18. (original) A kit according to claim 14 wherein said
computer program allows said customer to register additional image retaining
devices.

19. (original) A kit according to claim 15 wherein said
computer program allows the customer to select, modify and/or change said goods
and/or services that are to be provided.

20. (original) A kit according to claim 14 wherein a plurality
of said image retaining devices are provided in a single package.

21. (original) A kit according to claim 1 wherein said image
retaining devices comprises a roll of photographic film.

22. (original) A kit according to claim 21 wherein said unique
ID is provided on said roll of photographic film.

23. (currently amended) A kit provided to a customer for
organizing a plurality of images obtained from a predetermined source, said kit
comprising,

SB
PS
an image storage device for storing of images, said image storage device having an unique ID which has been forwarded to a database of a network photoservice provider wherein said unique ID is used by said network photoservice provider to register a certain good and/or service to a customer to be associated with images obtained from said image storage device ; and

OR
a computer software program such that when loaded on a computer will allow the consumer to accomplish certain operations at the photoservice provider with respect to said images obtained from said image retaining device.
